Jeff Metz, Morrill County Commissioner and Travis Rodak, Morrill County Attorney met with the board regarding Executive Order 14008, signed by President Biden regarding preservation of 30% of the lands and waters in the US by the year 2030. Metz expressed his concern with perpetual easements. It might be better to put a 30-year term on it. They are dangerous when signed into perpetuity. When property is sold, the value is reduced due to restrictions placed on it. Morrill County has amended their comprehensive plan to include language allowing for denial of conservation easements. Morrill County Attorney Rodak stated that the only way to deny an easement is if it conflicts with the county's comprehensive plan. The more conservation easements a county has, the more it erodes the tax base. Sioux County Attorney Edmund stated that the Sioux County plan has been ag-based. Details of amending the comprehensive plan was discussed. Chase Staudenmaier asked questions regarding restrictions on easements. Bill Wilson raised the concern of control of phragmites, Russian olives, and other noxious weeds when there is an easement in place. The issue will be explored further.
